

Community health centers (CHCs) are non-profit, community-driven clinics that provide primary and preventive care to all individuals, regardless of their insurance status or ability to pay. Health centers are located in underserved and rural areas across North Dakota and South Dakota, providing access to quality, affordable health care for those who need it most and retaining health care options where rural Dakotans live and work.

REASONS WHY CHCS MAKE A DIFFERENCE

1 Mission-focused, community-driven, patient-centered primary care clinics

2 Integrated, comprehensive care

3 **Access** regardless of insurance status or ability to pay

4 **113,068** individuals at **62** delivery sites in **51** communities

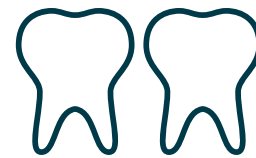

5 Total economic impact of more than **\$184 million**

6 The Dakota's CHCs employ **982** full-time equivalents

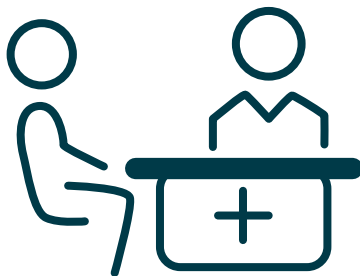

7 In 2020, provided quality dental services to more than **25,000** individuals

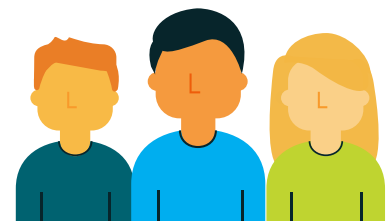

8 **SERVED 32,225 CHILDREN AND 3,175 VETERANS LAST YEAR**

9 **86,200 VISITS** in 2020 for behavioral health services

10 Each Medicaid patient receiving care at a CHC saved the health care system **24% ANNUALLY**
