

Melissa Craig | Operations Manager

Melissa Craig joined CHAD in 2000 as an administrative assistant and has grown her roles and responsibilities over the years to include data management, operations support, and special project management. Melissa's current role at CHAD includes managing the Uniform Data System (UDS) information on community health center members and managing secondary data for members and health care partners. As the resident historian, Melissa maintains the timeline for CHAD and health centers in the Dakotas. She also assists with funding applications and reporting requirements.

Melissa is a graduate of Bismarck State College with an associate's degree in information processing. She completed her Bachelor of Science degree in business administration with an emphasis on information systems from Minot State University in 2008. Melissa and her husband live in Bismarck with their two sons.
