

## REASONS WHY CHCS MAKE A DIFFERENCE

Community health centers (CHCs) are non-profit, community-driven clinics that provide primary and preventive care to all individuals, regardless of their insurance status or ability to pay. Health centers are located in underserved and rural areas across North Dakota and South Dakota, providing access to quality, affordable health care for those who need it most and retaining health care options where rural Dakotans live and work.

1 Mission-focused, community-driven, patient-centered primary care clinics

2 Integrated, comprehensive care

3 **Access** regardless of insurance status or ability to pay

4 **136,722** total patients at **66** delivery sites in **54** communities

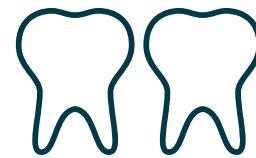

**5** Total economic impact of more than **\$266 million**

**6** The Dakotas' CHCs employ **1,859** full-time equivalents

**7** In 2021, provided quality dental services to more than **28,500** individuals

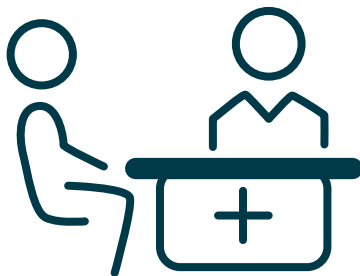

**8**

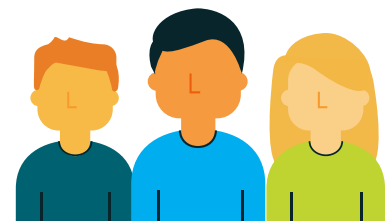

SERVED  
**43,391 CHILDREN**  
AND  
**3,886 VETERANS**  
LAST YEAR

**9** **89,999 VISITS**  
in 2021 for behavioral health services

**10** Each Medicaid patient receiving care at a CHC saved the health care system **24% ANNUALLY**
